## I am inevitable thanos

Following the premiere of the film, the catchphrase has been referenced in posts on Twitter, Reddit and other online platforms. On April 23rd, 2019, following the film's premiere in South Korea, Twitter user @junny3173\_2 tweeted the quote, attaching a captioned GIF from 2008 superhero film Iron Man. The tweet gained over 7,000 retweets and 25,000 likes in six days. I am inevitable.I, am... Iron Man. pic.twitter.com/vFUV3ZS2T1 — 앤겔 스포하는 키덜투 (@jinny3173\_2) April 24, 2019 On Reddit, image macros featuring the quote were posted following the United States premiere. On April 28th, 2019, Redditor Asadbnurza posted an image macro based on the quote to /r/EndgameSpoilers subreddit, gaining over 770 upvotes in tow days (shown below, left). On April 29th, 2019, Redditor AwpTicTech posted another macro with the quote (shown below, right). The MCU has brought us some remarkable superheroes throughout its many films, all-encompassing a variety of admirable traits and amazing abilities that make them worthy of the mantle. From Thor's formidable God of Thunder to Rocket Raccoon's mouthy mercenary, there has been no shortage of charismatic members. It's also brought us some memorable villains, from the beguiling Hela, to the mischievous Loki to give our heroes some spectacular conflict. But none so frightening yet so complex as Thanos the Mad Titan, a world-conquering cosmic being defined by his own moral compass and rules of conduct. Throughout Avengers: Infinity War and Avengers: Endgame, he presented himself as both an intergalactic thug and a philosophical warrior. With the launch of Disney+ now allowing fans of the MCU to dive into the world of the Mad Titan, fans are reliving the epic two-part movies in the comfort of their own home. Proving to be the most iconic villain in MCU history, Thanos provided some memorable lines, and this list will reveal 15 of them. Updated by Matthew Wilkinson on January 15th, 2020 to include an extra five of the most iconic Thanos quotes in history. 15 "YOU'RE STRONG, BUT I COULD SNAP MY FINGERS AND YOU'D ALL CEASE TO EXIST." A powerful harbinger of the pain that would come in Avengers: Endgame, this quote from Thanos in Avengers: Infinity War shows that the Mad Titan is not one to mince words. In one phrase, he both acknowledges the might of the Avengers and that their combined power is nothing in comparison to the power of the Infinity Gauntlet in Thanos's hand. Infinity War ended with Earth's Mightiest Heroes and all their allies, from Doctor Strange to T'Challa and all his Wakandan forces, facing down the mighty Thanos and finding themselves falling victim to his use of the Infinity Gauntlet. He snapped his fingers, and half the Earth's population vanished almost instantly. 14 Thanos' Idea Of Fun "Fun isn't something one considers when balancing the universe. But this... does put a smile on my face." As Avengers: Infinity War explored, Thanos was a man on a mission. Though he could have been written off as a two-dimensional Big Bad, he was a villain that was driven by a complex purpose. While most saw him as a destroyer of worlds, he saw himself as their creator and redeemer. He leveled entire planets so that they could rise anew out of the ashes, societies with a chance at more with far fewer inhabitants competing for resources. This line was never spoken in Infinity War, but it was a humorous precursor to other similar lines he would utter in his final showdown with the Avengers in Endgame. It also echoes what the villain Top Dollar said to antihero Eric Draven in The Crow before he attempted to kill him, "...if it's any consolation to you, you have put a smile on my face." 13 Balance "Perfectly balanced, as all things should be." It is certainly something that makes sense when you think about it, but when it comes out of the voice of Thanos is just sounded chilling and creepy. Discussing how his mindset and ideas will bring balance to the world was a very memorable moment from Thanos' time in the MCU. All of Thanos' ideas come from a place of good in his own warped mind. He doesn't believe any of his actions are evil, and showing Gamora all about balance as a child was his creepy way of trying to convince others that his way was correct as well. 12 In Memory Of Tony Stark "You have my respect, Stark. When I'm done, half of humanity will still be alive. I hope they remember you." No matter if you loved or hated Thanos, he wasn't a typical villain. He was driven by his own sense of morality, and his own code of conduct. When Tony Stark/Iron Man engages him in hand to hand combat for what will be the last time, it seems appropriate given Thanos first appeared in the pages of an Iron Man comic book. Unfortunately, he's no match for the Mad Titan, who stabs him in the chest. He then delivers this line, which could just as easily have included, "...when I'm done, half of humanity will die", but he chose to give Tony hope that the people of Earth would move on. The respectful but ominous phrase about them remembering Tony provides eerie foreshadowing to Tony's sacrifice in Endgame. 11 A Curse Speaking of Thanos' interaction with Iron-Man in Avengers: Infinity War, another great line that the villain comes out with is, "You're not the only one cursed with knowledge." This moment comes when Iron-Man and Thanos first cross paths and it becomes clear that they already know each other's names. It's an interesting take that Thanos immediately tries to gain sympathy from Tony Stark and his issues. Knowledge is something that is seen as a major power within the MCU and life in general, so to see someone who is very intelligent admit that it can be a curse is a very interesting take. 10 Thanos Knows Failure "I know what it's like to lose. To feel so desperately that you're right, yet to fail nonetheless. It's frightening, turns the legs to jelly. I ask you to what end? Dread it. Run from it. Destiny arrives all the same. And now it's here. Or should I say, I am." Thanos addressing the Asgardians in Infinity War with commentary on failure seems strange given the context of being a Titan, a race of eternal cosmic beings. While it may be hard to imagine Thanos feeling desperate, the statement is profoundly poignant in its relatability, and echoes sides of his character revealed in comics like The Death of Captain Marvel or Thanos Rising. After Thanos uses the Infinity Gauntlet to make half of Earth's population disappear, the Avengers seem to do exactly as he describes; run from their failure to have stopped him. But whereas he proclaims himself the "destiny" that their future is made of, they decide to use their desperation as strength, a symbol of never giving up, and forge a new destiny in Avengers: Endgame. 9 The "Mercy" Of Thanos "You were going to bed hungry, scrounging for scraps. Your planet was on the brink of collapse. I'm the one who stopped that. You know what's happened since then? The children born have known nothing but full bellies and clear skies. It's a paradise." During a particularly heartfelt moment between Gamora and Thanos, he carefully elucidates the way he plucked her from obscurity and poverty by taking her from her home planet, a planet he stripped of its population. Where she saw a vibrant world full of happy inhabitants, he saw a planet in denial of the socioeconomic and political problems that were bringing about its inevitable ruination through scarcity of resources. By removing most of the population, there was enough food to go around and access to resources previously fought over. His "paradise" was created stepping in and deciding what was best for a planet whose population couldn't decide that for themselves. 8 What Did It Cost You? The storyline between Thanos and Gamora is one of the most interesting and emotional throughout the entire MCU. In Avengers: Infinity Wars that moment comes to a boiling point when he sacrifices her in order to retrieve the soul stone. He then sees a baby version of his daughter in a memory, where she asks him what it cost him to get what he wanted. Thanos gives a simple, one word answer, "Everything." It might not be a long line or a thought provoking quote, but that one word shows the vulnerable side to him and just how much he truly did care for Gamora. 7 "THE HARDEST CHOICES REQUIRE THE STRONGEST WILLs." Thanos never came across as a wholly impulsive being. Every decision he made was carefully thought out, its repercussions measured, its outcomes weighed. He knew for every action there was a consequence, and on cosmic scales that the Avengers and people of Earth couldn't even fathom. Therefore when he set out to destroy planets, he knew he would need the resolve to do it, or the guilt that came with empathizing with their populations could be too much to bear. Thanos had strong willpower, but the Avengers' resolve was stronger. Though he destroyed the Infinity Stones, they pooled their resources and came up with a way to get them back. At every turn, their resolve was equal to his, which he ultimately respected. 6 Thanos Brings Out A Magic Eraser "I thought that by eliminating half of life, the other half would thrive. But you have shown me... that's impossible. As long as there are those that remember what was, there will always be those, that are unable to accept what can be. They will resist.." After Thanos used the Infinity Gauntlet to snap his fingers and erase half of the Earth's population, he fled to a paradise he had created for himself to live in peace. His peace didn't last long, and the Avengers tracked him to the refuge with Nebula's help. He waxed poetic about what he'd done, and why what had worked on other planets failed to work on Earth. Where he had destroyed the entire world's before and rebuilt them as thriving civilizations, eliminating half of Earth didn't work because the remaining half didn't go on to thrive. Resistant to change, they remained stagnant, unable to progress because they were so crippled with grief and loss. 5 "I'M A SURVIVOR" Thanos' exchange with Dr. Strange is one of the best moments in MCU history. Bringing together two powerful minds as Thanos reveals what he did to his planet, making the decision to wipe out half of its existence. They have an amazing back and forth conversation which leads to several brilliant quotes. However, the best moment was when Thanos tells Strange that what he predicted came to pass. Strange quickly bites back by congratulating him for being a prophet, but the Mad Titan didn't want that crown, instead he says, "I'm a survivor." It is in that one line that you get a clear look at exactly what goes through his mind. 4 "I AM...INEVITABLE." On several occasions, Thanos has said the chilling words "I am inevitable". Like fate and destiny, Thanos knows the most crushing blow to the Avengers is the thought that no matter what they did or didn't do right or wrong, his damage to the human race would be a certainty. This is clearest when the Avengers locate him after he's used the Infinity Gauntlet to wipe out half the Earth's population. He explains that after he used the stones on Earth, he used their power to destroy themselves, an act which nearly killed him. But it finalized his destructive purpose and made the damage he caused irreversible. 3 A Grateful Universe "I will shred this universe down to its last atom and then, with the stones you've collected for me, create a new one. It is not what is lost but only what it is been given... a grateful universe." Though Thanos had destroyed the original Infinity Stones after using the Infinity Gauntlet to kill half of Earth, the Avengers had combined Pym Particles with Time Travel to locate each stone again. What they didn't count on was a Thanos from the past following them back to their present and trying to take the stones again. Where Thanos took half the population last time, he was going to take all of it this time. He was going to tear apart the very universe Earth resided in so that he could create a new one with inhabitants who knew nothing of what he'd done to create it, only that it was by his idyllic design. 2 "YOU SHOULD HAVE GONE FOR THE HEAD" This isn't just one of Thanos' most iconic lines, but it has become one of the most iconic quotes in the entire MCU. The moment comes right at the end of Avengers: Infinity War and leads to the snap actually taking place, which changes everything. At this point in the film, it seems like Thor has saved the day, killing Thanos just in time. But it turns out his attack was in the wrong body part, as Thanos smartly tells him, "You should have gone for the head," proving he is still alive and able to click his fingers before disappearing. 1 "YOU COULD NOT LIVE WITH YOUR OWN FAILURE, AND WHERE DID THAT BRING YOU? BACK TO ME." The time after Thanos used the Infinity Gauntlet is a bleak one for everyone on Earth, but life becomes especially hard on Earth's Mightiest Heroes. The average citizen wasn't aware of the cost of Thanos succeeding in getting all the Infinity Stones, but the Avengers were, and they felt the failure of their mission more keenly because they hadn't been able to stop him. Dealing with the consequences of failure is a theme that ripples through the entirety of Endgame, as is the concept of destiny. To Thanos they are one and the same for the Avengers, who he feels cannot progress when their expectations of themselves are shattered. His gloating comments spur them into finding a way to rectify the damage and loss he caused.
