Bounty hunter land ranger pro metal detector manual

The Land Ranger Pro is Bounty Hunter's first director. It is packed with features that will rival those other guys who sell for as much as \$1,000. If you want a big car for much less, check this out. The Bounty Hunter Premier Detector features the legendary 11" DD search coil. The LCD display has 43 target ID icons (3 per iron) with 0-99 target ID numbers and 4 tones audio ID. It has an active depth indicator of 5 segments and an aPin Point mode that displays depth in inches. It has a variable tone breaking point adjustable Sensitivity, Volume, Discrimination, Notch and V-Break. It has the ground balance of One-button Grab with the manual override and 7 search modes. These modes vary from pre-set operation for beginners to maximum control for the most experienced. This is a metal detector that won't eliminate your skill level. Be the envy of all your friends "Hunter"! This product can only be shipped to US addresses. V-Break, breakpoint variable Pinpoint mode with Ground Grab depth indicator, computerized soil balance 0-99 Target-ID 4-Audible ID 7-Operation mode Discrimination, movement, no Variable Notching V-Break movement, variable breakpoint Mode Pinpoint mode with depth indicator Ground connection, computerized terrain balance 0-99 Target-ID 4-Audible ID 7-Operation mode Hunter Land Ranger Pro is our Premier Metal Detector, and is the result of nine years of software engineering, with the latest advances in light design, target accuracy and deep-penetrating detection technology. The Land Ranger Pro can be used with its default turn-on-and-go settings or can be customized for any of the treasure hunt applications with its unique features such as Enhanced V-Break®, High Resolution Conductivity Arc and Program Memory, as well as manual and automatic search modes. Treasure hunt enthusiasts from around the world have been involved in the development of this new revolutionary detector. Detect the coins up to 10" (25 cm) deep with our renowned world 11"DD (28 cm) waterproof elliptical search for greater depth, objective separation and ground cover designed to minimize soil mineralization. The wide LCD display includes a 99-segment Target-ID system, a 5-segment graphic indicator, a mode indicator, a battery level indicator, a Ground-Grab warning and an easy to navigate menu. 1 of 4 tones Audio ID sound for any metal detected: V.C.O., low tone, medium tone or high tone. The detector can be used in any of the 7 different modes, each of which calibrates the detector operating parameters at different levels of ability, applications or environments. Different modes can be used for different detection objectives and to suit the best to various soil and treasure conditions. Sensitivity and volume can be controlled with 10 settings. Adjust the ground setting from 0 to 99 for higher performance under more adverse conditions, such as salt water beaches and highly mineralized soil. Discrimination and Notch can be set between 0-59 to eliminate unwanted metals, and our patented V-BREAK® function allows the user to change the audio response of certain targets so that any target with an ID in the range of 0 - 69 can induce a LOW tone. With Pinpoint mode, the search coil movement is not required, and will help provide more information on the shape and size of the target and also find its exact location to facilitate extraction. Our unique ground erasing feature Ground Grab® allows you to set the internal setting of the detector equal to the Ground Phase you are looking to calibrate the detector to the most accurate. With the Land Ranger Pro in hand, there is no limit to what you will find – ancient coins, priceless relics of past civilizations, intricate jewels, and also golden pepite. What are you gonna find? FURNITURES Ground Grab®, Computerized Ground Balancing Built-in Speaker Stem Adjustable: 44" to 51" / 112 – 129,5 cm 1/4-inch Headphone Jack armrest and Hand cushion "S-Rod" handle SCOPE OF SUPPLY Metal Detector Manual Application range Focus group Professionals DISPLAY OPTIONS weight (without access.) 1 g 2 Batteries are not included in delivery.
