Barron's sat physics pdf

Test Preparation SAT Subject Test Preparation guys i did the barrons practice tests and scored 720+ for all of them can i get 800 or 780 for the real test with these scores???? 720+ in barrons is a really good score, because as you know barrons is actually harder than the real test,so yes I am sure you can score 800 on the real test. Best of luck. Thanks amyharvard for the quick rply Do you think princeton is tough too??? i find princeton tougher than barrons :(i got really demotivated when i scored a 690 (princeton paper) PR tests are pretty hard,but not as tough as barrons,PR is just a little hard.The test in the official CB guide should give you a pretty accurate estimation. Actually you shouldn't be proud of your score. It all depends on the test. And since you just scored low on the PR tests, your situation is quite similar to mine. View my thread here and you'll know what i'm talking about. Oh btw i scored a 690 in the actual tests, sucks i know. But no need to be disheartened, Just keep on working hard. I'm reappearing in May again. I'm trying to clear every little concept i'm not good with.
